EMPOWERING HMIS SUCCESS

symmetric solutions inc.

HMIS Consultants

Homeless Management Information Systems (HMIS) Services

Symmetric Solutions, Inc.

Consultants in Homeless Management Information Systems (HMIS)
Planning, Selection, and Implementation

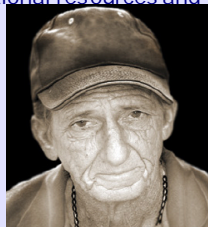

Enabling HMIS Success

Symmetric Solutions, Inc. is a consulting firm that specializes in the planning, selection, and implementation of HMIS solutions. Symmetric does not develop or sell HMIS software. Instead, Symmetric works with Continuums of Care and homeless provider agencies in areas such as planning for HMIS implementations, selecting HMIS software and implementation teams, training users, developing interfaces, and project management.

Symmetric uses only senior-level, experienced consulting professionals to serve on HMIS projects. Our consultants possess the unique skills required for HMIS projects including project management, training, strategic planning, software selection, technical systems administration, system interface development, and help desk support.

We work with your HMIS implementation team to provide additional resources and supplement the skills within your team. We also bring our experience and tools from working with other Continuums on successful HMIS implementations.

Benefits of Using a HMIS Consultant

Use of a qualified and experienced HMIS consultant can:

- Reduce your costs
- Reduce the time to plan, select, and implement your HMIS
- Reduce risk of project failure
- Leverage knowledge and tools from other successful projects
- Facilitate decision-making
- Improve communication and collaboration between providers

Coming September 15, 2003

HMIS Discussion Forum

Symmetric Solutions will be hosting a HMIS Discussion Forum at www.symmetricsolutions.com. The HMIS Discussion Forum is open to all HMIS Project Managers, System Administrators, and interested parties to

- Share advice, tips, and information
- Share documents such as forms, policies & procedures, implementation tools, training guides, and other project documents
- Collaborate and communicate with your peers from all over the country
